UNIQUE LED TECHNIQUES & INNOVATIONS

During the years of working closely with our partner company and experts in illumination techniques, we have developed a special recipe for all our illumination elements.

- Exclusively designed frequency and brightness of the strobing effect for an excellent light result
- Exquisite colours and large range of hues
- IMS (Intelligent Marquee Systems) and Wall Washer techniques are now included into our services

FULL SERVICE

We are continuously improving our technical “know how” and implementing new, even higher standards in design, quality and safety. We offer a full range of services: ideas and design concepts, engineering solutions, electrical installation works, assembly and disassembly of decorations as well as transportation and storage.

QUALITY AND SAFETY

All our decorations comply with protection class IP67: a complete protection against ingress of dust and airborne particles over extended time. Protection against water and liquids, up to and including immersion in up to one meter of water.

About Us

Limitless passion for original Christmas decorations that brings light and a heartfelt touch to anyone open to joy. This great passion led to creation of December Design, which is more than just a decoration company.

Forbes

Published by Forbes Latvia on January, 2022

“Every decoration we design has to be an adventure that fascinates children and awakens the inner child that lies within every adult.”

Designer & founder of
December Design

Kristaps Štobis

About Us

Who we are

We are a decoration company with a professional history dating back more than ten years. Our highly skilled team of artists, designers, engineers, production specialists and other professionals can make any of your dreams come true. Our mission is to continually create the most ingenious sense of celebration.

What we do

We create exclusive, original design Christmas decorations in one copy or limited edition and we illuminate the world through light arts.

From initial ideas and overall concepts to manufacturing, logistics and assembly - we are your choice for festive decor and illumination design.

Our works can be found in large cities and small villages, on house rooftops and shopping center facades and to wherever Christmas is coming to...

Why December Design

Over the years of creating magical Christmas decorations, together with our clients, we have been recognised by many respectable companies. We believe that the best way to grow and evolve is by uplifting others - our team, partners and clients.

Our experience also includes decorating an airplane's cockpit!

DESIGN PROJECTS AVAILABLE FOR SALE & RENT

The remarkable and interactive hot air balloon has been one of the most complex Christmas decoration in terms of design of 2020 in the Baltics. Several details are made exclusively, preserving a traditional technological solution – painting and embroidery. The decoration is raised above the ground and placed on a special platform, simulating sensations of a real air balloon. Sound effects add to the interactivity.

Made of lightweight
aluminium

Decoration dimensions
6 x 6 x 12,8 m

Sound effects and added
hydraulics for extra interactivity

IMS (Intelligent Marquee Systems)

IMS is a versatile, cost effective, safe and reliable solution. The new improved technology takes marquee and festoon lighting to a new level offering dimmable white, tunable white, and RGBW LED marquee lamps or bulbs that are individually controllable on a single 2 wire cable.

Wall Washer

Linear luminaire for illumination of facades and other surfaces. In addition to the magnificent look, the wall washers make also a great source of light as the light projection can reach as far as 20 meters.

RGBW colour changing LED – can display more than 16 million colours

IMS and Wall Washer can be controlled remotely

Static and Dynamic illumination designs are available

DER SPIEGEL

Magazine "Der Spiegel" ranks the city of Ogre among the most beautiful Christmas towns in 2021.

"Over the last two years thanks to the Christmas decorations, the interest in Ogre City as a tourism destination in the low season has been higher than in summer."

FAQ

Frequently Asked Questions

1. Where do all decorations and materials come from?

We manufacture all decorations in our 1000 sqm factory in Liepaja, Latvia. As a result of a successful cooperation, LED products are custom made by a partner company in China for December Design thus providing the end user with an exclusive design product. Aluminium and other essential materials are imported directly from the best European suppliers.

2. How long does it take from start to finish to create a Christmas decoration?

It all depends on the size and complexity of decoration and project. Pre-made design decorations can be delivered as soon as one month after signing agreement while for custom made individual decorations or complete scenographies 6-12 months is the preferred time range. We advise all our clients to put in requests during the first 3 months of the year to be sure of the result.

3. How to order a decoration from pre-made design projects?

Please send us request and mention the number of the design project listed beside the sketch. We will get in touch with you as soon as possible to agree on preferred size and colours as well as logistics related questions.

4. Are design projects made for one user only?

Pre-made design projects are usually sold to multiple clients with minor tweaks on the design, meaning that similar but not identical decorations are sold. If you want a completely unique design based on the design of our pre-made projects, please get in touch with us. We would love to adjust the project to fit your needs!

5. How to order custom made decorations?

To order custom-made Christmas decorations or illumination designs, please contact us.

6. Do you ship worldwide?

We have a partnership with many shipping companies meaning we can arrange fast and reliable shipping to most EU and Schengen Area countries.
